

# Kristina Vogli

Athens, Greece

## Summary

Front-end developer focused on building responsive interfaces and clean component architectures. Strong in React, modern JavaScript, and UI implementation workflows. Emphasis on maintainability, state management, and production-ready build practices.

## Skills

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frameworks:** React, Next.js
- **Styling:** Tailwind, CSS Modules, Bootstrap
- **Tooling:** Git, Vite, Npm, Linux, Github, Docker
- **Other:** REST APIs, basic Node.js, accessibility principles, Vercel

## Experience

Freelancing 2023-2025

Created portfolios and landing pages for clients through direct networking, handling layout design, responsive implementation, asset optimization, and delivery of production-ready builds.

## Education

Self-taught through The Odin Project curriculum and FreeCodeCamp bootcamps, covering core front-end foundations, component-driven development, and practical project workflows.
